AN INTERNSHIP REPORT

**“QUORA FOR EV WITH
PRICE ANALYSIS”**

Bachelor of Engineering
Telecommunication and Engineering

Submitted by: **ADARSH N INAMDAR(4JN18IS002)**

JEEVAN M (4JN18IS034)

Department of Telecommunication Engineering

JNN College of Engineering, Shimoga-577201

2020-2021

ABOUT THE COMPANY

The race for digital transformation is on. In this globally connected on-demand world with rapid advancements in internet technologies, businesses worldwide are under constant pressure to add innovative real-time capabilities to their applications to respond to market opportunities.

Every business worldwide is building event-driven, real-time applications - from financial services, transportation, and energy, to retail, healthcare, and Gaming companies.

Our endeavour is to make it easy to develop innovative real-time applications and efficient to operate them in production.

We have a proven record of building highly scalable, world-class consulting processes that offer tremendous business advantages to our clients in the form of huge cost-benefits, definitive results and consistent project deliveries across the globe.

We prominently strive to improve your business by delivering the full range of competencies including operational performance, developing and applying business strategies to improve financial reports, defining strategic goals and measure and manage those goals along with measuring and managing them.

VISION

We are committed to going the extra mile to bring success to the clients consistently.

We are dedicated to delivering the right people, solutions, and services to the clients that they require to meet their technology challenges and business goals.

MISSION

Optimizing client satisfaction with quality services.

Delivering the most efficient and the best solution to our clients to every client leveraging leading technologies & industry best practices.

OVERVIEW OF THE PROJECT

Project Name : QUORA FOR EV WITH PRICE ANALYSIS

Team Members: ADARSH N INAMDAR

JEEVAN M

This project is based on Web Development And its Applications. The main objective of this project is to learn the implementation of HTML, CSS and JavaScript. The basic webpage of this project is created using HTML and styling of the webpage is done using CSS.

This webpage is about one of the greatest companies of all time.

It is believed that service and quality is the key to success, Enabling business success driven by technology.

Harnessing the power of technology, we create a measurable difference for our clients across various industries & multiple geographies.

We develop responsive, functional and super-fast websites. We keep User Experience in mind while creating websites. A website should load quickly and should be accessible even on a small view-port and slow internet connection.

ABOUT COMPSOFT TECHNOLOGIES

1.

BRANDING:

They offer professional Graphic design, Brochure design & Logo design. We are experts in crafting visual content to convey the right message to the customers. We also design custom wraps for your products(also known as package designing)

2.

SEARCH ENGINE OPTIMIZATION:

We help you manage your SEO campaign more efficiently and effectively. We help you gain market share by leveraging our expertise. our holistic approach to

identify anything that may be hurting your traffic or rankings and show you just how to outrank the competition.

3.

CONTENT WRITING:

They provide content writing services for blogs and product descriptions, our team helps you generate content to Increase your Brand Recall. We can amplify your marketing needs & help you reach your potential customers.

4.

RESEARCH:

We equip business leaders with indispensable insights, advice and tools to achieve their goals, our main area of research is in sentimental analysis, having published multiple papers on the same, we are in the process of creating a virtualbot that is intended to use our sentimental analysis data to provide real time replies.

5.

EMBEDDED SYSTEM AND IOT:

CST works with Consumer Electronics, Lighting, Home Automation, Metering, Sensor-Technology, Home Appliance and Medical Device companies to help them create smart and connected products.

Through its integrated Embedded and IoT services, Technosoft helps build intelligent & connected devices that can be remotely monitored and controlled while leveraging edge and cloud computing for a host of intelligent applications and analytics.

6.

CRITICAL THINKING:

We need you to be able to analyze evidence, question assumptions, test hypotheses, observe and draw conclusions from any form of data. Critical thinking is not just a skill, but a habit formed to help with problem-solving.

7.

COMMUNICATIONS SKILLS:

Good communication skills are essential to to understand our clients requirements more accurately and quickly. In contrast, poor communication skills lead to frequent misunderstanding and frustration.

8.

PROFESSIONAL AND WORK ETHICAL SKILLS:

They believe people who practice a strong work ethic are less likely to procrastinate the task at hand are the first to step up and take on a new task and at CST we value your work along with your ethics

9.

EXPERIENCE:

They think Experience is the key to success and would help CST provide the best service to our clients and hence living up to our standards.

TOOLS USED

Software Requirements: Visual Studio Code 2019.

Google Chrome or Microsoft Edge of latest version.

Front End: HTML, CSS, JS (optional)

Linux 7.1 or Windows XP/7/8/10 OS or Mac OS

Hardware Requirements:

Pentium 200-MHz computer with a minimum of 64 MB of RAM .

Monitor with a refresh rate of at least 40Hz for a smooth GUI experience.

IMPLEMENTATION

  margin-top: 50px;
}
```

JSS:

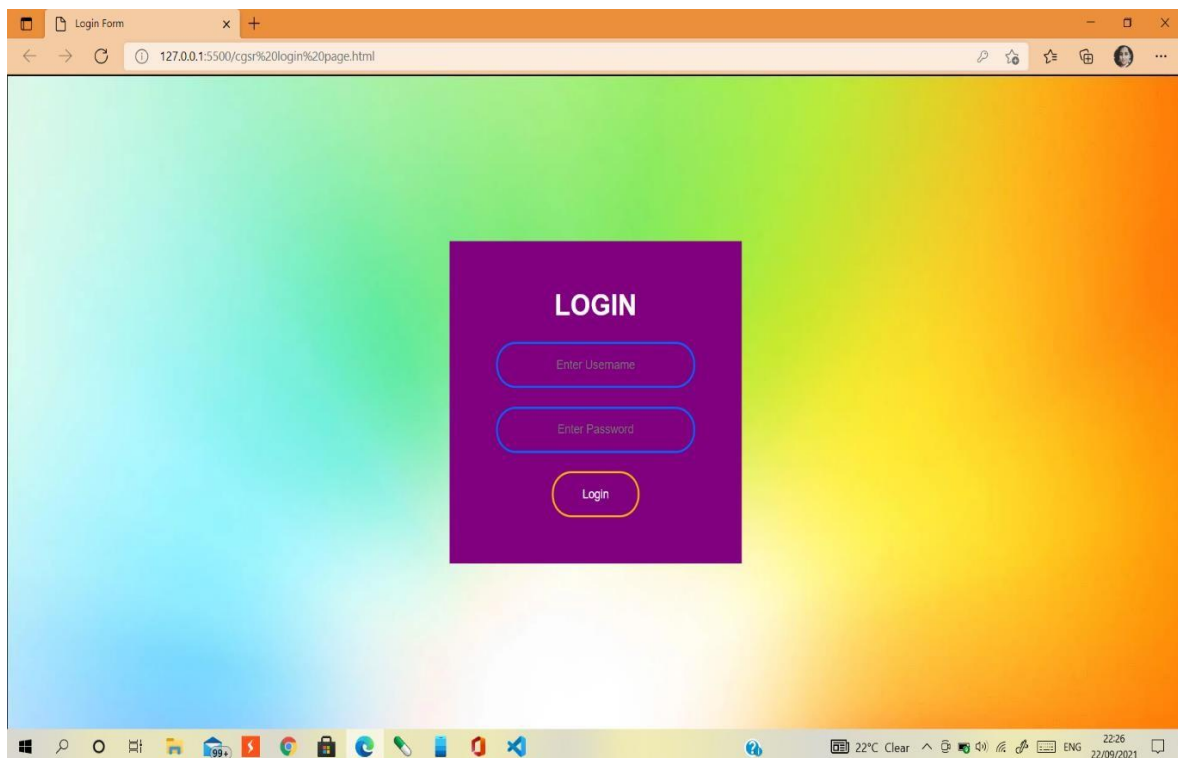

```
//navbar
function hideIconBar()
{
    var iconBar= document.getElementById("iconBar");
    var navigation= document.getElementById("navigation");
    iconBar.setAttribute("style", "display:none;");
    navigation.classList.remove("hide");
}
function showIconBar()
{
    var iconBar= document.getElementById("iconBar");
    var navigation= document.getElementById("navigation");
    iconBar.setAttribute("style", "display:block;");
    navigation.classList.add("hide");
}
//comment
function showComment(){
    var commentArea= document.getElementById("comment-area");
    commentArea.setAttribute("style", "display:block;");
}
function showReply(){
    var replyArea= document.getElementById("reply-area");
    replyArea.setAttribute("style", "display:block;");
}
```

IMPLEMENTATION

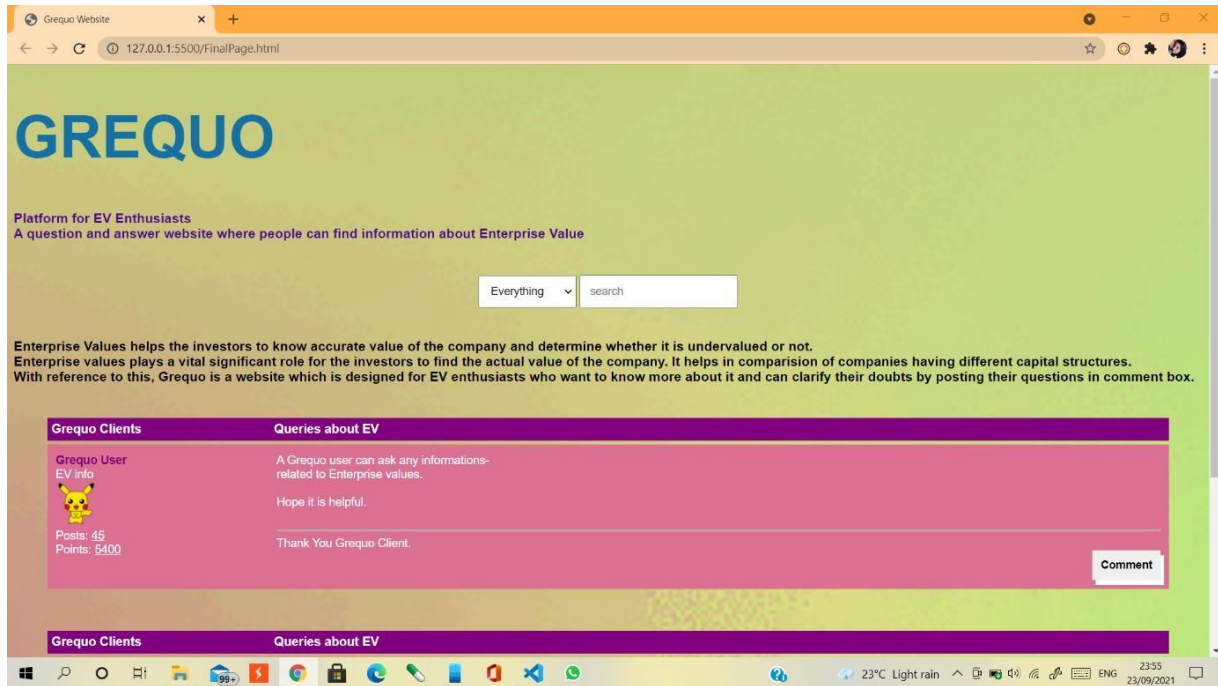

Snapshots

STEP 1: Firstly we created Login page of our web page, in this page we have to enter Username and Password to Login the page.

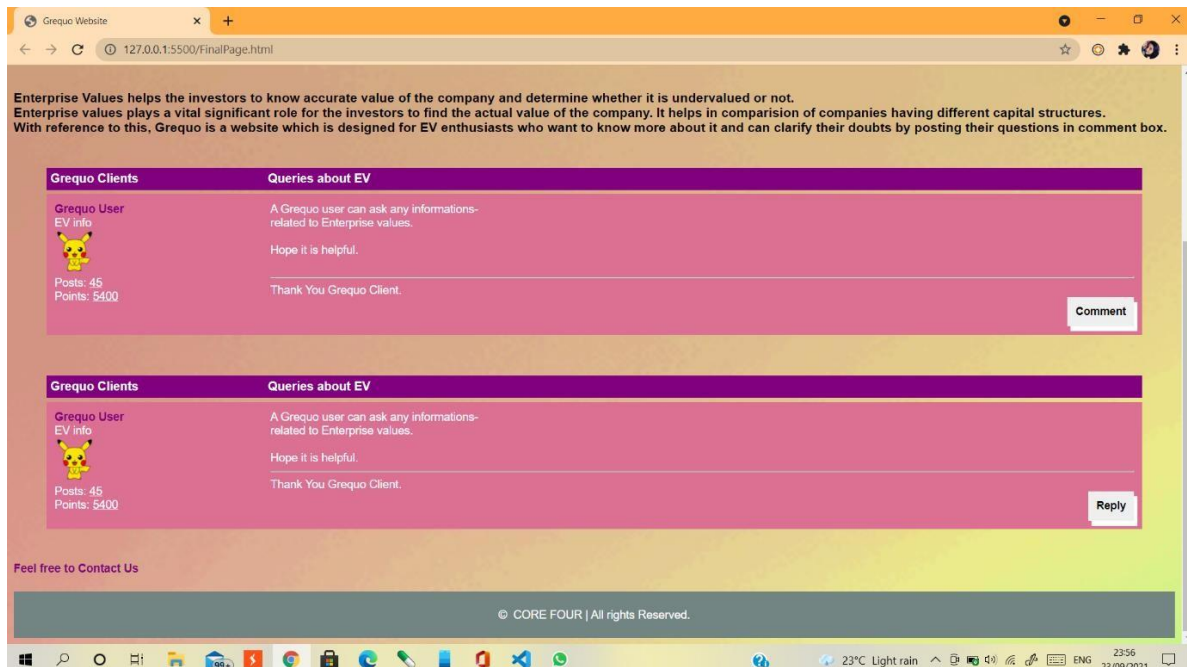

STEP2: Here we created a questions and answer webpage where people can find Information about Enterprise value.

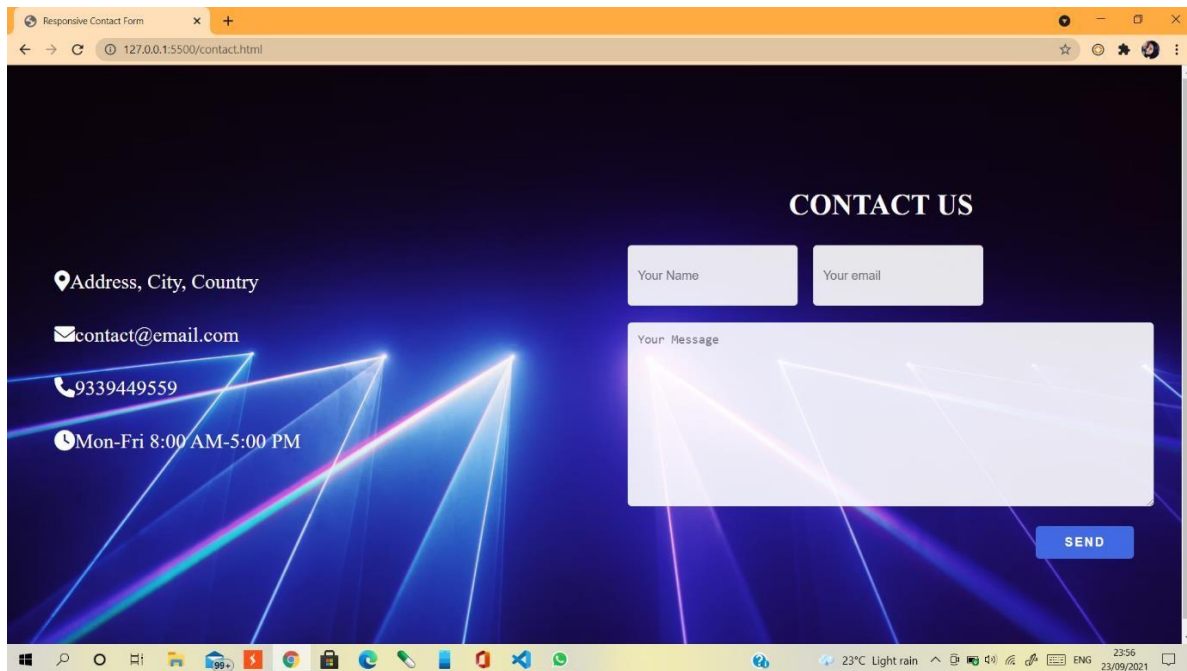

STEP3: Here we created continue of above Grequo Clients and Queries about EV.

STEP4: Here we created Contact Us page which contains Address, City , Country , Mail , Phone number and Sate and Time.

ABOUT MY TEAM

Firstly my team mates are SHWERHA , POONAM , SUCHETHA and me SMITHA, We worked this project i.e **QUORA FOR EV WITH PRICE ANALYSIS** for 10 long days , as me and Shwetha Brought up the Backend code of this project using Javascript and Poonam worked on Frontend of the project and last but no least my teammate Suchetha worked on Report of this project ,as totally be shared our work to bring up a best project of our knowledge, And we Thank our Internship team to give a wonderful project and opportunity .

THANK YOU
